The Consumer Technology Association (CTA) is the sole sponsor of the Leaders in Technology (LIT) Program at CES 2026. CTA's mission is to educate U.S. policymakers and ensure that innovation is protected from laws and regulations that could delay, restrict, or ban the development of emerging technologies across all sectors. To support this mission, CTA hosts policy sessions and roundtable discussions throughout the year on the most pressing issues in technology.

The LIT Program has a strong legacy of engaging policymakers. Historically, it has brought together more than 200 elected and appointed government officials who gain direct exposure to the innovative consumer technology industry. Participants experience groundbreaking products and engage in dialogue about the policy issues that shape the future of emerging technologies.

As part of the program, invitees also take part in the Innovation Policy Summit (IPS), which serves as a platform for thoughtful conversations on technology's role as an equalizing force. IPS topics for CES 2025 will include artificial intelligence, digital health, self-driving vehicle technology, and more. These discussions connect policymakers with industry leaders to explore opportunities and address challenges in rapidly evolving fields.

As the sole sponsor of the LIT Program, CTA extends the invitation and manages every aspect of the experience for participants. This includes conference coordination, travel arrangements, and overnight accommodation. By doing so, CTA ensures policymakers can focus fully on engaging with cutting-edge innovations and contributing to the important policy conversations that will shape the future of technology.

#15-2

The location for CES has been selected to meet the needs of the trade show and to accommodate the large number of guests attending from around the world. It provides the necessary space and resources for all exhibitors to showcase their technologies, as well as dedicated accommodation for Leaders in Technology (LIT) participants. Attendees have convenient access to the CES show floor, including the West and East Halls, allowing them to experience the latest innovations firsthand. In addition, LIT participants can engage in multiple Innovation Policy Summit (IPS) sessions, led by thought leaders, covering key issues and emerging trends in technology throughout the program.
